After one month of the marriage there were fights between us as she kept comparing me to her previous husband and kept speaking about her first husband. Due to the continuous disputes after a year of marriage she left and went to live with her mother. For two years I waited but things did not seem to work out. I approached Aurton Ki Shariya Adalat (ASA) / BMMA seeking help. ASA /BMMA team called my wife and self for counselling sessions were attempts were made to reconcile us. Total six sessions were held in the span of three months to help us reconcile but it were all in vain. After a tedious 3 months session we both mutually agreed that we should divorce.
